Concussion Care

**The UK's Leading Sports Medicine
Partner for Schools and Clubs**

The UK's Leading Sports Medicine Partner for Schools

Who are we?

Return2Play* are the UK's leading sports medicine provider for schools and clubs, with a range of services available.

Our leading service is our Concussion Care package. This enables schools and clubs to provide gold-standard care for their players by providing them with direct access to some of the UK's leading sports doctors and concussions experts.

By automating communication inside and outside of the school or club, running clinics 7 days a week and integrating with other systems, we provide the school or club with the peace of mind that their players are being well looked after in an easy and admin-light manner.

*Return2Play is part of Meliora Medical Group.

What do we do?

Our Concussion Care package takes the advances learnt in elite sport and makes them available to schools and clubs.

The package includes:

Telemedicine Concussion Management

- Access to clinics run 7 days-a-week. Our doctors are made up of the UK's leading concussion experts who also work in elite sport at Saracens, Harlequins, London Irish and more.
- Sports Doctor led management from Day 1 post-injury until fully recovered with unlimited access to as many appointments as they need.

Sports Injury Education

- Educational and training videos and sessions for staff, parents & players.
- Head injury policies and documentation.

What do we do?

Access to Sports Doctor Advice

- Named doctor for all staff to contact for advice about injuries and their treatment.

Injury Data Analysis

- Annual injury review led by the R2P Medical Team.
- Advice regarding injury prevention strategies and policies.

R2P Injury Management System

- Red/Amber/Green injury dashboard.
- Automated communication when injury status changes to key stakeholders.
- Appointment booking.
- Audit trail of all pupil injuries and treatment.
- Integrations with SOCS and Wonde.

What do our Partners say about us?

"Partnering with Return2Play enhances the safety and welfare of our pupils. I commend it to you without hesitation".

Deputy Head, Trinity School

"Return2Play do a fantastic job managing all of our sports medicine services at Harrow. Couldn't be happier"

Head of Rugby, Harrow School

"Return2Play have helped to take a lot of the worry and stress out of returning pupils to sport. We no longer have to beg pupils to visit GPs and have them out of sports for longer due to lack of appointments."

Head Nurse, City of London Freemans

"I cannot speak highly enough of the service we received from Return2Play. They were there in our hour of need."

Parent, St Edmund's Hindhead

Frequently Asked Questions

These are some commonly asked questions from schools and clubs:

Q. Why do you use telemedicine? Is that as good as in-person appointments?

A. It is widely published in medical literature that the outcomes from telemedicine appointments are the same as in-person for concussion assessments. Using telemedicine means that players can have access to the UK's leading concussion experts at convenient times which they otherwise wouldn't be able to do.

Q. Is there flexibility on cost or payment terms?

A. We are always happy to discuss pricing or introduce payment terms. We do not want finances to prevent us providing care to your players.

Q. How quickly can we launch? Should we wait until next September now?

A. We can launch immediately. If needed, we can discuss payment terms to help with an immediate launch.

Frequently Asked Questions

Q. Can we use this for our rugby teams only?

A. We strongly encourage you to not view this as a "rugby issue". Concussions happen in all sports and non-sport. Behind rugby, the second highest incidence rate is "non-sporting" such as playground injuries.

Q. Is this going to mean more admin for our staff? We already have lots of systems in place.

A. Recording an injury on the R2P System can mean double data-entry in some cases. This is no different to when nurses refer to specialists as they will already do for other injuries.

Q. Can we use the R2P System for all injuries?

A. Yes. All injuries can be recorded, but only concussions will be linked to our doctors.

Q. Does this cover players over school holidays or trips?

A. Yes, the cover is for 365 days of the year and whether the injury happens inside or outside of school.
